1. Which of the following data sources can you connect to when you are creating Power BI reports and dashboards? Select all that apply.

1 / 1 point

☒ CSV files

✔ Correct

Correct! Power BI can automatically connect to generic sources such as a .CSV file.

☐ Word document

☒ Website URL

✔ Correct

Correct! One of the default connectors in Power BI is a web connector.

☒ Excel Worksheets

✔ Correct

Correct! Data from Microsoft Excel can be imported directly into Power BI.

2. Which command on the Home Tab do you use to begin bringing data into Power BI?

1 / 1 point

☐ Load Data

☒ Get Data

☐ Transform Data

✔ Correct

Correct! The get data drop down contains a list of common data sources that Power BI can use and allows you to start the process of bring your data into the program.

3. When you finish a report in Power BI and intend to make a dashboard, what step must you take before you can do this?

1 / 1 point

☒ Publish the Dashboard

☐ Create the Dashboard File as a separate file in Power BI Desktop.

☐ Export the File

✔ Correct

Correct! Before you take visualizations from the report and pin them to a dashboard the file must be published to the Power BI Service.

4. How many pages of visualizations can an individual Dashboard contain?

1 / 1 point

☐ Two

☐ Five

☒ One

✔ Correct

Correct! Each Dashboard is comprised of a single page. However, you can create multiple Dashboards from the same Power BI file.

5. How can you pin a visualization to a Dashboard? Select all that apply.

1 / 1 point

☒ Choose the Pin to Dashboard choice from the command line at the top.

✔ Correct

Correct! Some visuals will not display a pin symbol when selected but you can pin them by choosing this command on the ribbon at the top of the screen.

☐ Copy and paste the visual to the Dashboard.

☒ Hover the mouse over the visual and click on the pin symbol when it appears.

✔ Correct

Correct! When the mouse pointer hovers over a visual, a pin symbol will appear at one of the corners of the visual. Clicking on this will pin the visual to the Dashboard.

6. The Q&A section of the Dashboard allows users to ask questions in real language about the data. How is the answer visible to the user?

1 / 1 point

☒ On a Card.

☐ In a speech bubble on the appropriate visual in the Dashboard page.

☐ The visuals on the Dashboard are all filtered to show the answer.

✔ Correct

Correct! The Q&A feature opens in full screen view and the answer is produced in a Card visualization. This can be pinned to the Dashboard if required.
