1. Which service handles security in Power BI?

1 / 1 point

☒ Azure Active Directory

☐ Microsoft Dataverse

✔ Correct

Correct! Power BI is built on Azure, so it has the same level of security as other Microsoft Services.

2. If you share a dashboard with other people, how are they authenticated?

1 / 1 point

☐ They are authenticated separately against the original data source.

☒ They are automatically given access.

✔ Correct

Correct! Sharing Power BI dashboards carries a responsibility. Because you connected to the data using your credentials, anyone you share the dashboard with has automatic access.

3. Which of the following might the Power BI administrator be responsible for? Select all that apply.

1 / 1 point

☒ Governance

✔ Correct

Correct! The configuration of governance policies to control how people use and share company data would be an important duty for a Power BI administrator.

☒ Provisioning of licenses

✔ Correct

Correct! The Power BI administrator should ensure that sufficient licenses are available and that they are used effectively and fairly.

☒ Monitoring usage

✔ Correct

Correct! A Power BI administrator should monitor usage to ensure that the Business information and analysis generated in Power BI is shared and used correctly.

☐ Creating credentials in Azure.
