1. Which of these can be contained in a Power BI app? Select all that apply.   1 / 1 point

☑ Dashboards

✓ **Correct**
Correct! A Dashboard or several dashboards can be added to the app to deliver key metrics to the Power BI users in your organization.

☐ Workspaces

☑ Reports

✓ **Correct**
Correct! A report or several reports can be added to the app to deliver key metrics to the Power BI users in your organization.

---

2. A colleague has shared a report with you. You would like to use one of the visuals from the report in a new dashboard that you are creating. How can you do this?   1 / 1 point

○ Copy the visualization and paste it on to the dashboard.

○ You cannot re-use the visual because it comes from a report based on a different dataset.

◉ In the report page, hover over the visual and click on the pin symbol to attach it to a dashboard.

✓ **Correct**
Correct! When you choose to pin, you will be able to pick the dashboard that you want to add the visual to.

---

3. The process of connecting different tables together and getting the connected data ready to be displayed visually, is known as what?   1 / 1 point

○ Power Query

◉ Data Modelling

○ Publishing

✓ **Correct**
Correct! Data modeling is the process of getting your connected data ready to be displayed visually and establishing relationships between tables of data if that is necessary.

---

4. Which of the following are parts of the Power BI desktop screen? Select all that apply.   1 / 1 point

☐ My Workspace

☑ Report

✓ **Correct**
Correct! The larger area of the Power BI desktop screen is the Report or canvas where you add visuals to build the report.

☑ Visualizations Pane

✓ **Correct**
Correct! This pane, on the right-hand side of the Power BI desktop, is where you find the collections of visuals that you can add to the report.

☑ Field Pane

✓ **Correct**
Correct! This area, on the right of the Power BI desktop, is where query elements and fields can be selected to include them in the report.

---

5. Which of the follow are parts of the Power Query window? Select all that apply.   1 / 1 point

☑ Queries Pane

✓ **Correct**
Correct! The pane on the left-hand side of the Power Window lists all the queries in the file and lists them for selecting, viewing, and shaping. There will be at least one query for every table being used.

☑ Data Table

✓ **Correct**
Correct! The center pane of the screen shows the tabular data. If the dataset is very large, it may show only the first 1,000 rows.

☐ Page tabs for the pages in the report.

☑ Query Settings Pane

✓ **Correct**
Correct! This pane, which appears on the right-hand side of the screen, shows the query settings and any transformation steps that have been applied. You can use this window to re-order or delete steps if necessary.

---

6. When add a text field to the value area of a graph visual on the report page, what aggregation does Power BI perform?   1 / 1 point

○ Sum

◉ Count

○ This will generate an error message.

✓ **Correct**
Correct! Power BI is aware that the entries are text and picks the appropriate aggregate which is count.
