1. You are creating a flow to save Office 365 email attachments to OneDrive for business. You started by searching for and locating the template which will help you to do this. Once you've clicked on the template and the template details page opens what would be your next step?

   1 / 1 point

   ⦿ Enter credentials for Office 365 and OneDrive
   ◯ Choose a Trigger
   ◯ Choose an Action.

   ✓ **Correct**
   Correct! If you are not already signed in, you will need to be authenticated so the template process will ask to you sign-in.

---

2. Which of the following are examples of action types? Select all that apply.

   1 / 1 point

   ☐ Receiving an Email.
   ☑ Loops.

   ✓ **Correct**
   Correct! A loop step runs an action until conditions are met to move to the next step of the flow

   ☑ Sending an Email.

   ✓ **Correct**
   Correct! Sending an email could be included as an action step in the Power Automate flow.

---

3. You have created an approval flow and you would like to see any approval requests you have sent. Which series of steps are correct to bring you to the Approvals Center?

   1 / 1 point

   ◯ On the Power Home Automate home screen, click on the Approval Center choice in the top left.
   ⦿ Click on My Flows and then on Actions.
   ◯ Chose to edit the flow and then click on Approval Center link in the top right.

   ✓ **Correct**
   Correct! The Actions drop contains the approvals choice which brings you to the Approvals Center.

---

4. When you create a Business Process Flow which of the following statements are true? Select all that apply.

   1 / 1 point

   ☐ You can add stages and steps to the business flow using the Properties tab on the right-hand side of the screen.
   ☑ You can use the mini map to move around the business flow.

   ✓ **Correct**
   Correct! The mini map in the bottom left of the design screen, will help you to navigate the flow and jump to areas to edit.

   ☑ A flow must be based on a Table.

   ✓ **Correct**
   Correct! When creating a Business Flow, you must choose a table to base the process on. The choice of table affects the columns that are available for steps in the business flow.

   ☐ A flow name must be unique.

---

5. How many stages can a business flow contain?

   1 / 1 point

   ◯ 40
   ⦿ 30
   ◯ 10
